**DOCTOR OF NATUROPATHY
ELECTIVE CHOICES
2011**

In the Doctor of Naturopathy, there are some elective choices to be selected. This form will show you know the category of courses that you need to select them from. Please retain a copy for your records. This will also help you keep track of the courses you have completed. Courses will be sent in numerical order by course number (installment plan students only). If the elective choices are not chosen, we will skip those courses and resume numerical order once they have been submitted to the school.

The best way to choose your courses is by referring to the course description(s) in our catalog, as well as reading the book description(s) (if available) on the Reagan's Bookstore website, www.reagansbookstore.com

We must have the LAST page returned for your student file. We cannot send these courses until this form or an email confirming your choices has been submitted to the school. We cannot accept choices over the phone.

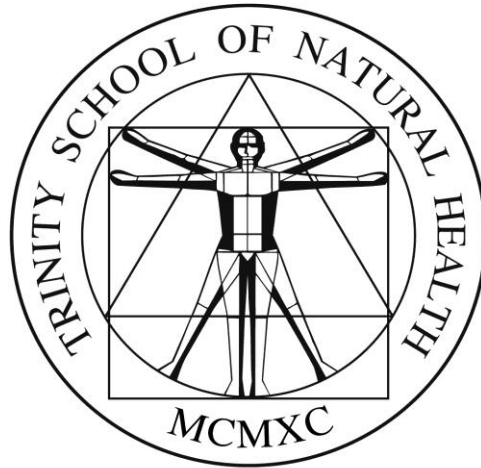

This list is NOT in numerical order

<p>ALTERNATIVE MEDICAL STUDIES SNH 211 Choices in Therapy (required)</p> <p>CHOOSE 1: SNH 427 Health Assessment SNH 334 Dry Blood Cell Analysis</p>
